

Competition Etiquette

- Arrive to your field **at least** 30 minutes before your scheduled shoot time. Our recommendation is to arrive an hour early.
 - This gives your athletes ample time to get their gear ready and watch a few targets.
- Scorekeepers- call “LOST” loudly when a target is missed and be at your assigned field on time ready to start. Stand near the scoring chair or the first station with the clipboard in hand so the teams know you are there.
- Always be mindful of your time.
 - Take breaks when appropriate and when needed, but do not delay the schedule of your field for the teams shooting after yours.
- Be respectful of your scorekeeper, but verify scores before the scoresheet leaves the field.
- When shooting trap, always refill the machine after every two rounds (at the 50-break and the end of the 100).
 - This will prevent any surprise delays and keep the machine in top shape.
- When someone is loading the machine, all athletes should be off the line with all shotguns in the rack.
 - Make sure to place a cone out or raise the flag to let teams know someone is in the trap house for the safety of everyone at the range.
- Clean your field when your team is finished shooting.
 - Collect all empty hulls and dispose of all trash, break down any boxes, and leave the field better than you found it. Your range staff will thank you!
